# FOREWORD

---

THE present publication contains a General Catalogue of all the living Alumni of Ohio University including the Faculty and the Board of Trustees. Every graduate, whether of a two-year, three-year, or four-year course has been included, no classification as to degrees being attempted. The degrees following the names of graduates are those which have been conferred by Ohio University only. Degrees conferred by other universities for post-graduate work and "Pro Honore" are not given in this catalogue.

The order observed in recording the facts about each alumnus is as follows: name, degree, occupation, place of residence, and date when the information was last verified. The notation "(4-23)" indicates that the address is correct as of April, 1923. "Unverified" after an address indicates that it has not been verified since 1920. "Obs" indicates an address now obsolete and no longer correct.

Where so much detail is involved it is likely that many errors, typographical as well as of fact, will be found to have crept in, but it is hoped that their number will not be disproportionately great. Many graduates who are now listed as "Obsolete" were lost track of in the years when comparatively little was being done in alumni record work. Graduates of the two year courses, Stenography, Commerce, and Electrical Engineering in the period of 1895-1910, have been lost to the Alumni Office in great numbers. The work of maintaining accurate files is at best a "50-50" proposition demanding the cooperation of graduate and alumni officer alike. The Editor will very gratefully receive even the slightest amendments to the records as set forth in the Directory and will carefully preserve them for use in a future edition.
